PM Literacy Assessment Kits

PM Literacy Assessment Kits are an essential resource to accurately track and assess children's reading progress at every age and stage. They can be used alongside PM or independently to ensure consistent levelling in reading.

Accurately level children's reading

PM Literacy Assessment Kits enable you to identify children's reading skills and strategies with unseen fiction and non-fiction texts. Analyse information to make informed decisions about your children's future reading development and monitor their progress on an ongoing basis.

Literacy Assessment Kits contain:

- 60 accurately levelled and engaging texts across levels 1–30
- New pre-level 1 and post-level 30 assessments
- A Teacher's Resource Book with enhanced digital content including printable record sheets and online videos.

Literacy Assessment Kit Training

In-school training can help you to make the most of your Literacy Assessment Kit. Training takes place over two sessions, covering 'the balanced reader' philosophy, how to take and analyse running records and how to use results to inform instruction. A practical benchmarking task will be set between sessions one and two. Email training@scholastic.co.uk for more information.

Please note: some geographical restrictions may apply.

“The trainers answered questions in between the two sessions, helping us to set up benchmarking in our school... The training was very informative and supportive.”

What makes PM unique?

- **Careful levelling**
All books have been meticulously levelled to ensure there is a gentle learning gradient.
- **Clear structures to aid comprehension**
PM books are built around simple concepts and narrative structures that children can grasp quickly.
- **Gentle introduction of new words**
New high frequency words are introduced slowly and regularly reinforced to foster fluency.
- **Close text/illustration match**
Illustrations and photos support decoding and extend the meaning of the text.

- **Engaging content**
Accessible stories, recurring characters and high interest non-fiction topics are designed to spark enthusiasm in reading.
